

RELIABILITY IS PREDICTABLE

SPARE PARTS PACKAGES FOR
SIMTAP 2 AND 3 FEEDERS.

SPARE PARTS PACKAGES FOR SIMTAP 2 AND 3

Your SimTap feeder handles a wide range of solid dose products, filling blisters correctly, reliably, and at top speed. It does so cycle after cycle, attaining up to 3.6 million strokes in single-shift operation. Top performance is required of certain

components – they are subject to high stress and wear. Timely replacement of these is essential to ensure smooth production. We have put together tailor-made spare parts packages for this preventive maintenance.

CONVINCING SERVICES

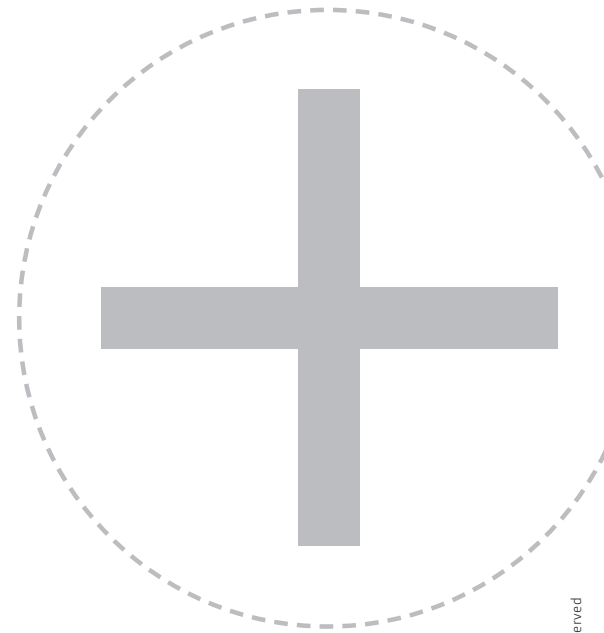

- On-site installation of the spare parts by an Uhlmann service technician
 - Training package for full maintenance of the SimTap 2 or SimTap 3
- Objective: Timely recognition of wear and fast rectification

YOUR ADDED BENEFITS

- Reliable, smooth packaging over the long term
- Consistently high productivity
- Increased uptime, reduced downtime on the basis of systematic preventive maintenance

Spare parts packages: These include all parts needed for the preventive maintenance of your SimTap 2 or 3. They are based on a servicing interval of 1,500 operating hours. Should your SimTap be approaching 7,500 hours of operation, our additional package for a complete overhaul is used.
